ABOUT ME

WHAT DO I DO?

I'm a skilled Full Stack Developer with a wealth of diverse life and technical that I bring to every project.

HOW DO I DO IT?

I follow form as well as function. I know that the aesthetics of effective design combined with application speed, security and reliability combine to create a great user experience.

WHY HIRE ME?

I work quickly and effectively in getting things built and working across the stack. I'm an excellent communicator who thrives in bright and enthusiastic teams and I'm also a self starter when working solo.

WORK HISTORY

02/1994 – 04/ 2004

MY SKILLS

FRONT END

I'm skilled in User Experience Design using the trinity of HTML/CSS/Javascript. I also have extensive experience in Front End Frameworks such as Angular and React

BACK END

I specialize in data-driven web applications. Many of my projects utilise document-based data. I use Python and Django in conjunction with MongoDB to process and present information.

Skill	Level
HTML / HTML-5	
CSS / CSS3	
JavaScript / jQuery	
Django / Python	
SQL / NoSQL
